

Environmental Statement

Biggins & Gallagher Limited recognise that their activities have an impact on the environment, however they are actively committed to minimising any adverse environmental effects by operating in a socially responsible manner.

The company strives to ensure that every aspect of their activities, both on site and in the office, is conducted in accordance with sound environmental practices by means of the following objectives:

- Comply with relevant environmental legislation and regulatory controls
- Adopt methods to ensure efficient and economic use of fuels, for example using locally-sourced materials
- Minimise consumption of natural resources, including only using timber from sustainably managed sources
- Minimise generation of waste by adopting improved operating practices and efficient purchasing, and seek opportunities for recycling materials wherever practical
- Seek to operate and maintain equipment to highest practicable standards in order to meet environmental objectives, including reduction of CO₂ emissions and energy/water conservation
- Ensure waste and effluent is disposed of in a safe and responsible manner
- Prevent pollution and be fully prepared to cope with operational emergencies which might affect the environment – use of bunded fuel and oil storage on site
- Incorporate measures to minimise noise, dust and vibration disturbance to neighbours
- Provide necessary information to enable employees to operate processes efficiently and minimise environmental effects
- Continually seek to improve the environmental impact of their activities
- Increase employee awareness of environmental issues and the environmental effects of their activities, including the use of toolbox talks during site inductions
- Communicate policy to customers, suppliers and public by publication of the policy on the company web page
- Consider only suppliers and contractors who have an adequate environmental policy to encourage others to adopt a sustainable approach to business

This environmental policy has been designed to preserve and protect the environment as far as is reasonably practical.

The Managing Director has ultimate responsibility for this policy and through the Management Team and supervisors, will communicate this policy to all concerned.

The Policy will be reviewed on an annual basis to ensure its continuing efficiency.
